This issue of the “CNSC Book of Statistics,” contains statistics of the **1<sup>st</sup> quarter of 2025**. It is subdivided into two parts.

The first part (Part A) contains analysis of the evolution of traffic handled at the Douala and Kribi sea ports. This data is presented in terms of overall traffic, inbound traffic (imports) and outbound traffic (exports). It also relates to the evolution of trade with Cameroon's main trading partners. This refers to the countries of loading and discharge of goods. To conclude, it equally focuses on the evolution of trade in main products.

In the second part (Part B), statistics on trade flows (tonnage and FOB value) by country, by port and by product are presented in detail. Data on the average freight rate for imported containers (20-foot and 40-foot refrigerated or dry containers) are presented at the end of this document.

The data used for the different analysis was sourced from the Electronic Cargo Tracking Note (ECTN) and based on the date the ECTN request was validated.

The unit used is the **tonne** for weights and the **CFA Franc** for **FOB value** and **freight rates**.
